## Driving Safety Tips For Winter

Wintertime brings snow, sleet, black ice and poor driving conditions. Driving under such conditions should be avoided. When that is not possible, drivers can keep danger at bay by following some safety tips to avoid hazards or being stranded. Be sure the car has had a tune-up recently. Have the car's battery charged or replaced. Batteries lose power as the temperature drops, and cars require more power to start in the winter. Check the cooling system. Make sure the antifreeze will protect your car at the average winter temperatures in your area. Maintain good visibility. Windshield wipers and washer fluid keep the slush, snow and rain from blocking visibility. If possible, install winter wipers with rubber coverings to keep ice from collecting on the blade, and keep the windshield washer reservoir full. Rear visibility is just as important as front visibility. If the car has a rear window defroster, it should be in working condition. Taking preventative auto maintenance steps now can help avoid problems this winter.

## Force Protection Tips For Children

Never leave young children alone or unattended. Teach children to keep doors and windows locked and never to admit strangers. Know where your children are all the time. Advise children to never leave home without telling you where they will be and who will accompany them.

Use locally approved play areas where recreational activities are supervised by responsible adults and where police protection is readily available.

## Ceremony Affects Parking, Gym Hours

Two hundred parking spaces on Patch Barracks will be temporarily unavailable Nov. 30 to Dec. 2 as a result of the Deputy Commander EUCOM Change of the Watch ceremony. The areas affected are the parking lot in front and north of building 2337 (the fitness center), the parking lot on the west side of Husky Field, the parking lot in front of, behind and across the street from building 2505 (the Swabian Special Events Center), and on California Straße across from buildings 2370 and 2371. The Provost Marshal's Office recommends that those living and working on Patch walk to work, and those living on other installations and commuting to Patch use the 6th ASG bus shuttle service or car pool during this time. The Change of the Watch ceremony is a closed, invitation-only event.

In conjunction with the DCOM ceremony, the Patch Fitness Center basketball court will be closed Nov. 25 and Nov. 30 to Dec. 2, and the entire Fitness Center will be closed Dec. 2. All other Stuttgart Fitness centers will remain open as usual.

## EUCOM Computer Safety Tips

Network security procedures are important when using government computers. Practice network computer security by ensuring the right class of information goes on the right network. Use the secret LAN only for U.S. Secret and below, and use the unclassified LAN only for unclassified information. Never divulge computer network passwords (remember, the help desk will never ask you for your password); and mark e-mails with the appropriate classification. Always keep these tips in mind when using government computers. Proper security practices ensure safety for everyone. For info call the Information Systems Security Officer at 430-4175/civ. 0711-680-4175.

## Prohibited Purchases With GPCs

Formerly known as IMPAC cards, the Government Purchase Cards come with restrictions that users must be aware of. Cardholders contact appropriate authorities if there is any question. Prohibited items include: telecommunication systems such as FTS or DSN, construction services over \$20,000, dating and escort services, betting, casino gaming chips and off-track betting, transactions with political organizations, court costs, alimony or child support, fines, bail and bond payments, tax payments.

## Force Protection Travel Requirements

All Department of Defense military and civilian personnel must be briefed on force protection considerations that apply to their destinations and to the routes they plan to travel to and from that destination. Before leaving on any trip, always check government force protection Web sites for up-to-date travel advisories. These Web sites are [www.state.gov/travel](http://www.state.gov/travel) (criminal/travel advisories/warnings), [www.cdc.gov/travel](http://www.cdc.gov/travel) (types of diseases at that location) and [www.odcsops.hqusareur.army.mil](http://www.odcsops.hqusareur.army.mil) (FP page, threat levels by country).

## Modern System Training By Demand

Due to the unavailability of the 6th Area Support Group computer training classroom for the rest of the year, Modern System training will be conducted on a 'by request' basis. For info call 421-2077/civ. 0711-729-2077, or e-mail [smihalopoulos@chrma.hqusareur.army.mil](mailto:smihalopoulos@chrma.hqusareur.army.mil).

## Surveys Will Help Determine COLA

Over the next few months, two surveys will be conducted to determine if the Cost of Living Allowance given to U.S. service members living

abroad is sufficient. The first survey will be a living-pattern survey to determine which local stores typical service members shop in and how much they buy from the commissary and exchange. The second survey will be a retail price survey and will use the results from the living pattern survey to price over 160 goods and services. The prices gathered will be compared to prices in the United States for equivalent goods and services. If the cost in Germany is greater than the U.S. cost, COLA is paid. Some examples of the commodities to be surveyed are groceries, clothing, phone services, entertainment, auto maintenance, restaurants and day care. Keep a list of shopping places in order to make filling out the surveys easier. Also estimate what percentage of particular goods bought on the local economy as opposed to goods purchased at the commissary or military exchange. Now is the time to take control of your paycheck. Accurate and complete surveys can help ensure that pay better reflects actual expenses incurred.

## Split Disbursement For Travel Cards

Finance Battalions in U.S. Army Europe have implemented a new travel system in which payment can be made directly to the Bank of America Government Travel Card. Travelers should use the March 2001 DD Form 1351-2 when filing settlements. Mark the box next to split disbursement and put a specified money amount to be paid to the government travel card. When the travel voucher is paid, the amount elected will automatically be paid to the travel card and the remaining will be paid via EFT to the elected bank account. By exercising this split disbursement option and encouraging travelers to utilize it, commanders and leaders can directly impact the inflated delinquency rate for the government travel card in USAREUR. For info, call the 208th Finance Travel section at 430-8299/civ. 0711-680-8299.
